

## **UPDATE: Incident at Eastern Creek**

BINGO advises that the fire which occurred at its recycling and landfill facility at Eastern Creek on Saturday 1 February has been contained.

Fire and Rescue NSW left the site this morning and handed the facility back to BINGO.

The cause of the fire is yet to be determined. BINGO is currently working with the relevant authorities, including the NSW EPA, and will provide further information on the incident as soon as this becomes available.

The materials processing facility continues to operate as normal, and the landfill facility is currently operating at slightly reduced capacity.

BINGO confirms that no-one was injured in the incident.
